OBJECTIVE

A highly motivated **Full Stack Developer** with a robust foundation in computer science and hands-on experience in web development. Eager to leverage my technical skills and passion for problem-solving to contribute to innovative solutions in a fast-paced tech environment.

TECHNICAL SKILLS

- **Programming Languages**: Java, Python, C++, C, PHP
- **Databases**: MySQL, MongoDB
- **Tools**: Visual Studio Code, Postman
- **APIs**: TMDB API, Firebase API
- **Frameworks**: Node.js
- **Web Technologies**: HTML, CSS, JavaScript, ReactJS, NodeJS, JQuery, ExpressJS, Bootstrap
- **Version Control**: Git
- **Operating Systems**: Windows, Linux

PROJECT EXPERIENCE

1. Netflix Clone (Self-made Project)
May 2024 - June 2024

- Built a Netflix-like movie streaming platform using **HTML, CSS, JavaScript, ReactJS**.
- Integrated with **TMDB API** to fetch real-time data for movie listings, trailers, and reviews.
- Implemented dynamic routing for individual movie pages, providing a seamless user experience.
- Focused on creating a responsive UI using **CSS Flexbox** and **Grid**.

2. OLX Clone (Self-made Project)
June 2024 - July 2024

- Developed a full-featured marketplace application for buying and selling items using **HTML, CSS, JavaScript, ReactJS**.
- Managed real-time data with **Firebase**, allowing users to list, update, and delete products.
- Integrated secure authentication for users with **Firebase Authentication**.
- Designed a user-friendly interface with intuitive navigation for different product categories.

3. E-Commerce Website (Self-made Project)
July 2024 - September 2024

- Created a dynamic e-commerce platform similar to Amazon or Flipkart using **HTML, CSS, JavaScript, JQuery, NodeJS**, and **MongoDB**.
- Implemented functionalities like product search, filters, and a shopping cart using **NodeJS** and **ExpressJS**.

- Designed the database with **MongoDB** to handle product data, customer information, and order histories.
- Enhanced user experience by optimizing page loading speeds and mobile responsiveness.

4. Porter (Academic Project)
July 2023 - December 2023

- Developed an all-in-one transportation service platform offering vehicle bookings, and flight and train ticket reservations.
- Utilized **HTML, CSS, JavaScript** for front-end development and **PHP** for back-end functionality.
- Implemented payment gateway integration for secure online transactions.

5. Haritha Karma Sena (Academic Project)
January 2024 - April 2024

- Created a platform to manage waste collection services, enabling users to schedule pickups and make online payments for monthly services.
- Developed the project using **HTML, CSS, JavaScript** on the front-end and **Django (Python)** for the back end.
- Integrated email notifications for payment reminders and pickup requests.

EDUCATION

Bachelor of Computer Applications (BCA)
MG University, Kerala | Jul 2021 - Aug 2024

Higher Secondary Education (12th Grade)
St. Antony's HSS, Kerala | Jun 2019 - Mar 2021

Indian Certificate of Secondary Education (ICSE)
Mary Matha ICSE, Kerala | Jun 2018 - Mar 2019

CORE COMPETENCIES

- **Problem-Solving**: Skilled in analysing complex problems and implementing solutions through logical thinking and code optimization.
- **Communication**: Excellent written and verbal communication skills, capable of explaining technical concepts to non-technical stakeholders.
- **Teamwork**: Experienced in collaborating effectively with teams on academic and personal projects.
- **Attention to Detail**: Focused on producing high-quality code with a keen eye for catching and correcting errors early in the development cycle.
- **Adaptability**: Quick learner with the ability to pick up new tools, technologies, and frameworks as needed.

LANGUAGES: English, Malayalam, Tamil
